

## ZK-0310K

### One Touch Vacuum/Blow Design

**[Patent Certificate Approved]**  
 Patent No.: M471506, D159606

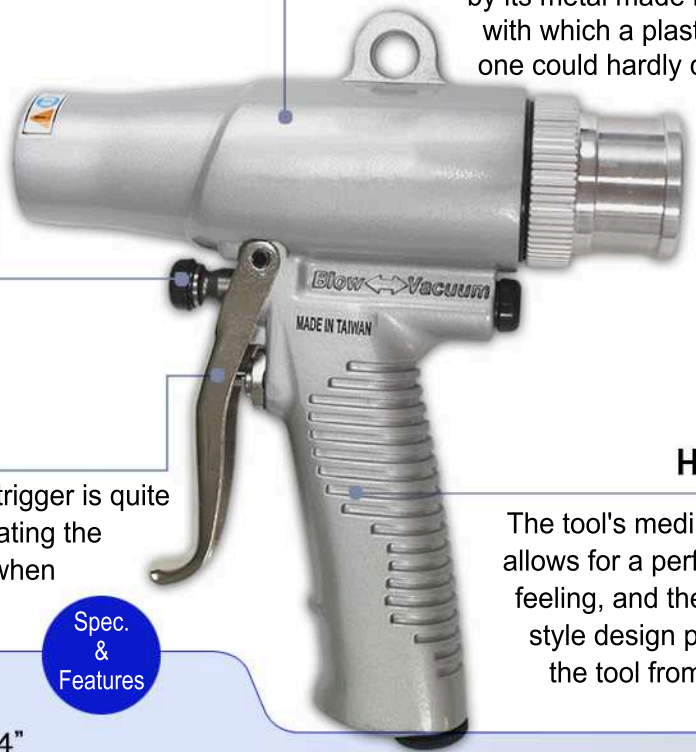

#### One Touch Knob

There is the function of changing the suction and blow by one touch of the knob.

#### Trigger

The grip pressure type trigger is quite controllable, as if integrating the handle with your hand when operating the tool.

#### Gun Body

The body's textured profile is enhanced by its metal made housing, with which a plastic made one could hardly compare.

#### Handle

The tool's medium size allows for a perfect grip feeling, and the furrow style design prevents the tool from sliding.

#### Spec. & Features

Air Inlet	1/4"
Avg. Air Cons.	4.5 CFM
Suction	9 cmHg
Air pressure	90 PSI
Weight	400 Kgs

#### Accessories

##### Extension Tube

In addition to the suction /blow function, it also serves as an extension tube.

##### Flat Tube

Enter this tube into the slot with a width of 1.5 cm to 15 cm in depth for narrow space cleaning.

##### Brush

Adjust the angle of the 360° rotating brush head to clean the desired area.

##### Small Dia. Tube

The 0.9 cm diameter small tube can easily clean the dust in/on very small spaces.

##### Flexible Tube

The flexible tube can extend to 12" long.

#### Contents :

1. Housing
2. Extension Tube
3. Brush
4. Small Diameter Tube
5. Flexible Tube
6. Flat Tube
7. Dust Bag
8. Clamping Ring \*2
9. Vacuum Hose
